	BRITT D. HANLEY	2889					
The MAILING DATE of this communication appe	ears on the cover sheet with the c	correspondence add	ress				
THE REPLY FILED 10 March 2010 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.							
The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time							
periods: a) The period for reply expires <u>3 months from the mailing date</u>	of the final rejection						
b) The period for reply expires some final final rejection. The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection. Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO							
MONTHS OF THE FINAL REJECTION. See MPEP 706.07(MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).						
Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee nave been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).							
NOTICE OF APPEAL 2. March 2010. A brief	f in compliance with 27 CED 41 27 i	must be filed within tw	o months of the				
 The Notice of Appeal was filed on 15 March 2010. A bried date of filing the Notice of Appeal (37 CFR 41.37(a)), or a Since a Notice of Appeal has been filed, any reply must b AMENDMENTS 	ny extension thereof (37 CFR 41.37	7(e)), to avoid dismiss	al of the appeal.

Supervisory Patent Examiner, Art Unit 2889							

Continuation of 11. does NOT place the application in condition for allowance because:

In the final office action, Examiner stated that Tokito et al. did not appear to explicitly disclose that the difference in affinity levels (also known in the art as LUMO (=Lowest unoccupied molecular orbit) between the hole barrier layer and the first and second light emitting layers is < 0.2 eV. Tokito et al. disclose in Figure 1, CDBP as the polymer host for the first and second light emitting layers and BAlq as the hole barrier layer. Tokito et al. does not disclose the LUMO values of these materials. However, a evidence which is not of record ("Organic Light-Emitting Materials and Devices", Edited by Zhigang-Rick Li and Hong Meng, CRC Press 2007, Print ISBN: 978-1-57444-574-9) shows in chapter 3.6.2 that the LUMO of BAlq is 3 eV and the LUMO of CDBP is 3 eV (the difference being <0.2 eV). Applicant has cited a reference which teaches different values. However, in light of the above reference ("Organic Light-Emitting Materials and Devices"), Examiner now believes that claim 1 is anticipated by Tokito et al. alone and obvious over Tokito et al. in view of Zugang et al.

Zugang et al. teach PBD, an excellent hole barrier material, and Applicant discloses in table 1 that the LUMO of PBD is 2.9 eV. Accordingly, the difference in LUMO values between CDBP and PBD is <0.2 eV.

Consequently, in light of the above discussion, the outstanding grounds for rejection are believed to be proper.
